Course Description:

This course provides an introduction to the world of financial management. Emphasis will be placed on the fundamental concepts, principles and problem-solving techniques used by the manager in financial decision-making within a corporate setting. The main topics covered in this course include financial statement, cash flow, time value of money, bond and stock valuation, interest rate and inflation, capital budgeting, risk and return, long term and short-term financial management.

Course Materials:

1. In-class Handouts

Readings and cases will be both selected from the optional textbook below and determined by the instructor. Students are not required to buy textbooks. The in-class handouts are the only mandatory course materials.

2. Optional Texts:

Essentials of Corporate Finance, Ross, Westerfield and Jordan, 9th Edition,
Irwin/McGraw-Hill

Corporate Finance Online, Eakins and McNally

Course Format and Requirements:

This course has 25 class sessions in total. Each class session is 120 minutes in length. The main format of this course is lecturing and class discussion. Before the class, the tutor must be prepared with fertile resources presented in PPT slides.

There should be no interruption of both other students and instructor and no talking out of turn during lectures unless called upon to answer a question. You are encouraged to ask questions or put up with your independent and unique solution, since extra credit may be given for thoughtful questions and solutions.

Laptop and cell phone regulation: Please turn off all cell phones during lecture. No texting during class lectures.

Attendance:

Participation is mandatory for successful completion of this course. Attendance will be recorded at the beginning of each class. 20% of the final grade is determined by attendance and participation in class discussion. Absences due to health can be excused only if the student brings a signed note from his or her health care provider.

**Course Assignments:****Problem sets (Individual Assignments)**

The Problem sets are individual assignments. You may discuss the questions and think about the approach together, but each student must prepare his or her own final write-up and presentation. Submitting multiple copies of the same spreadsheet or document with a different name on each one does not meet the requirement for individual work.

Quizzes:

There will be 5 quizzes administered through the whole semester. Quizzes are much more related to the content you have learnt in previous course, to help you review and summarize what you have learnt, thus you can have a better understanding and command to major knowledge. The quizzes will always be completed in the first ten minutes of class. The quizzes will consist of True/False and multiple-choice questions. There are no make-up quizzes for any reason.

Midterm Exams & Final Exam

There will be 2 midterm exams and 1 final exam administered throughout the course. There is absolutely no sharing of information sheets, calculators, or other resources during the exam. Cell phones may not be used as calculators. Any violation of these rules will result in a grade of 0 for all involved parties.

The two midterm exams will be in-class, close-book and non-cumulative.

The final will be cumulative and close-book.
